

CLASS WALL PANELS

SINGLE PANEL INSTALLATION

STEP 1

Plot your Soundtect installation on the wall. Work out your bracket spacing based on the number of panels in your design.

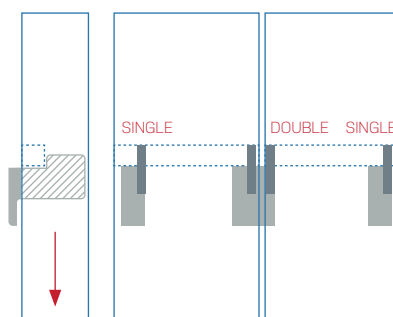

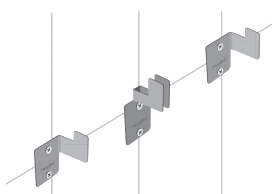

STEP 2

Fix brackets into place

STEP 3

Gently slide panel onto "L" bracket and slightly pull panel downward to 'lock' panel on bracket

MULTIPLE PANEL INSTALLATION

STEP 1

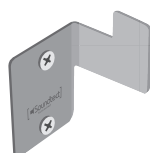

Plot your Soundtect installation on the wall. Work out your bracket spacing based on the number of panels in your design.

STEP 2

Fix brackets into place. Use the double "L" bracket where two panels are next to each other.

STEP 3

Gently slide panel onto "L" bracket and slightly pull panel downward to 'lock' panel on bracket

SINGLE "L" BRACKET
For fixing single panels

DOUBLE "L" BRACKET
For fixing two Soundtect panels side by side
